ERS HAPPENINGS

Teachers' professional learning plays a vital role in enhancing student success. By constantly honing their skills and staying updated with the latest educational research, teachers are equipped to deliver effective instruction tailored to students' needs. This continuous growth fosters a positive learning environment and promotes student engagement. Some examples of current professional learning topics include early literacy and numeracy instruction, connections to the new science curriculum, and learning how schools can best support neurodivergent learners.

REMINDERS

1. We want your feedback! Please fill out our short [Parent Survey](#)
2. ERS Learning Support is looking for a small bike and helmet for a 5-year-old child. If anyone is willing to donate, we would greatly appreciate it!
