OCTOBER '24

## ERS HAPPENINGS

### Shared Vision of Learning: Let's talk about Assessment practices:

Several teachers from the Canadian Rockies School Division attended the CAfLN Alberta Assessment Conference right here in Canmore. This conference featured a lineup of top Canadian and local Alberta assessment experts who shared their insights and best practices.

Divisionally, collaborative design days are created so that teachers across the division meet in grade groups to build collaborative relationships and design engaging tasks. And specifically at ERS during our Friday afternoon PLNs, French Immersion teachers looked at the neurolinguistic approach on oral/vocabulary acquisition while the English teachers looked at the new LA outcomes and how to assess reading while planning for and managing guided reading. This focus will continue for the month of October to help further our commitment to a shared vision of instructional excellence.
